2016 Rule(s) Bulletin

Bulletin: 2016 - 4 - August 4, 2016

**The following is a revision to the 2016 rulebooks:**

**World of Outlaws Craftsman Late Models Series**

**World of Outlaws Craftsman Sprint Cars**

**Super DIRTcar Series**

**DIRTcar Racing Late Model, Pro Late Model, UMP Modified, UMP Pro-Modified, Big Block Modified, 358 Modified, Sportsman Modified and Pro-Stock.**

**Please note: this document is intended to circulate the changed portions of the complete rules effective the date above.**

**15.6 Weight / Ballast**

- B.) Weights up to 50 lbs must be positively fastened by **two** (2) ½-inch, minimum grade 5 bolts with a minimum of two (2) weight clamps. Threaded rods will not be permitted. All weights must be painted white and clearly labeled with the car number on it.
- C.) Any **All added** weight(s) must be securely attached to the frame below the body decking.
- D.) **Frame is defined as the steel welded structure only.**
- E.) **Any part that moves or is not a fixed component to the steel frame structure may not be used for any weight attachment.**
- F.) Any car that loses any weight/ballast during an event may be subject to a penalty.
- G.) Weights attached to the rear bumper and/or outside the frame will not be permitted.
